NLM Training Program in Biomedical Informatics and Data Science: Approved electives

**Rice University**

See [this link](#) to the course catalog, and the form and deadlines for inter-institutional course registration for non-Rice students.

Rice does not post course schedules for the entire academic year, but rather posts the following semester's courses towards the end of the prior semester (~in late March for Fall semester courses, late October for Spring courses). Therefore, look at past semesters/years to learn whether a course is offered in the Fall or Spring semester so you can plan your curriculum timeline.
