

**Hee Kee Kim, Ph.D., Pharmacist/ Assistant Professor**  
**MD Anderson Cancer Center**

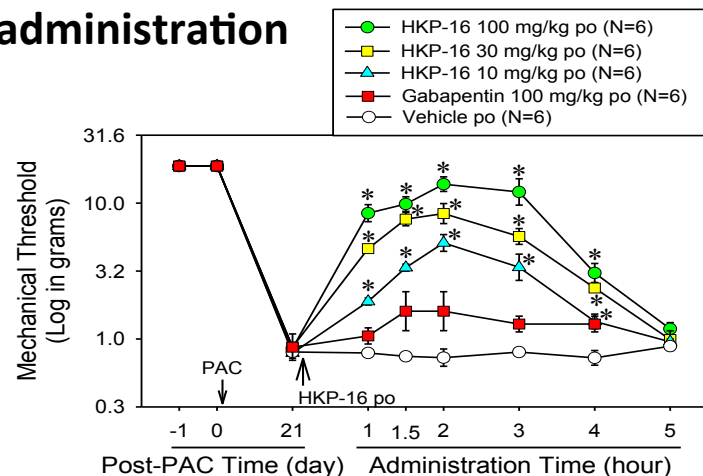

**Email Address: [hkim9@mdanderson.org](mailto:hkim9@mdanderson.org)**

**Research Interests: 1) To find new mechanisms of neuropathic pain**  
**2) To develop new drug candidates for neuropathic pain**

**Strengths or unique resources: 1) set up of neuropathic pain animal models and behavioral testing, 2) HKP compounds as new drug candidates for neuropathic pain that show potent analgesic effects by oral administration**

**Type of collaborator you seek:**  
**Seek organic chemist and electrophysiologist**

**RFA (s) of interest: RFA-NS-19-020, RFA-NS-18-043, RFA-NS-18-042**

**Analgesic effects of HKP-16 on chemotherapy-induced neuropathic pain in rats by single oral administration**
