PEGASUS PARK

Our mission is to build ecosystems and dynamic communities where life science-focused entrepreneurs translate scientific discoveries into high-performing ventures.

BioLabs is built by entrepreneurs for entrepreneurs.

Johannes Fruehauf, MD PhD
Founder and CEO

Our Partners:

Our Sponsors:

**37,000 sq ft
Space for 35 companies**

**7 private labs
90 open benches**

**30 private offices
40 open workstations**

12 conference rooms

HPLC
FPLC
Flow cytometry
NGS
Confocal microscope
Plate Readers & washers
Biomarker detection
Cell Counters
Blot and Gel Imagers
Thermal Cyclers
Cold storage
BSCs
Fume hoods
Bioengineering lab

**Fully equipped
shared lab**

Core Services and Facilities

Biolabs tenants will have access to core facilities at UTSW and UTA.

Some of these services include :

- Vivarium
- Electron Microscopy Core
- Flow Cytometry Core
- Human Genetics Clinical Laboratory
- Mouse Genome Engineering Core
- Next Generation Sequencing Core
- Proteomics Core
- Sanger Sequencing Core

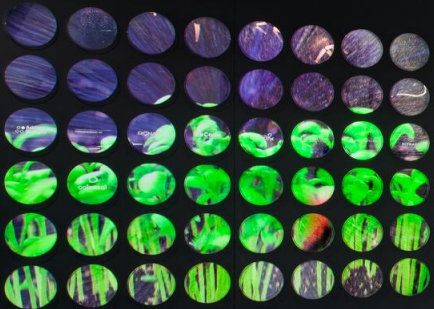

And Many more

 **biolabs**
PEGASUS PARK

You focus on your science.
We'll take care of everything else!

*If I have seen further
than others, it is by standing
upon the shoulders of giants.*

ISAAC NEWTON

Thank You
