

**PI Name/Degree/Career Level (Prof., Assoc. Prof., or As. Prof.): Kelly A. Vaughn, Ph.D., Assistant Professor**

**Institutional Affiliation: Children's Learning Institute, University of Texas Health Science Center at Houston, Houston, TX**

**Email Address: Kelly.A.Vaughn@uth.tmc.edu**

**Research Interests: Spanish and English language, cognitive, and neural development during early childhood for typically developing children and children at-risk for language difficulties**

**Strengths or unique resources: Research assistants will get to work with children and families on a daily basis. They will learn to administer child language assessments in English and Spanish and to code videos of parent-child language interactions. Research assistants will work as a team to support families with toddlers who were born preterm and are at-risk for language difficulties. This research is expected to have a direct benefit to the children and families we work with.**

**Other information you think is important for job seekers to know: Research assistants must be comfortable communicating with families in Spanish. Multiple part-time opportunities are available.**
