Reid T. Powell, Ph.D.,
Research Assistant Professor
Center for Translational Cancer Research
Institute of Bioscience and Technology
Texas A&M, Houston, TX

Email Address: repowell@tamu.edu

Research Interests: High throughput screening, Data science, machine learning, multi-omics analysis, drug resistance, combinatorial therapy

Strengths or unique resources: My lab supports the High throughput screening core facility at TAMU-IBT. We function to develop innovative solutions to create fully automated end-to-end analytical workflows that can be applied across multiple investigator initiated projects. We get to work with robots, lasers, and big computers...

Other information you think is important for job seekers to know:
At present, this is a passive application where we are seeking talented interdisciplinary researchers across background and skill levels and will open job positions for qualified applicants as needed.
